	PAGE
The cell-bound α -amylases of <i>Streptococcus bovis</i> . By G. J. WALKER	289
A transglucosylase of <i>Streptococcus bovis</i> . By G. J. WALKER	299
Regulation of xanthine dehydrogenase in chick liver. Effect of starvation and of administration of purines and purine nucleosides. By F. STIRPE and E. DELLA CORTE	309
Methods of automatic nucleotide-sequence analysis. Multicomponent spectrophotometric analysis of mixtures of nucleic acid components by a least-squares procedure. By S. LEE, D. McMULLEN, G. L. BROWN and A. R. STOKES	314
Reaction of carcinogen dimethylnitrosamine with proteins and with thiol compounds in the intact animal. By V. M. CRADDOCK	323
Biosynthesis of L-tyrosine O-sulphate from the methyl and ethyl esters of L-tyrosine. By J. G. JONES and K. S. DODGSON	331
Studies on protein and nucleic acid metabolism in virus-infected mammalian cells. The formation of a virus-specific antigen in Krebs II ascites-tumour cells infected with encephalomyocarditis virus. By I. M. KERR, E. M. MARTIN, M. G. HAMILTON and T. S. WORK	337
Entry of glucose carbon into amino acids of rat brain and liver <i>in vivo</i> after injection of uniformly ^{14}C -labelled glucose. By M. K. GAITONDE, D. R. DAHL and K. A. C. ELLIOTT	345
The oxidation of D- and L-glycerate by rat liver. By P. D. DAWKINS and F. DICKENS	353
Studies on the mucin derived from human colloid breast carcinoma. By J. B. ADAMS	368
Erythroeruorin of <i>Marphysa sanguinea</i> . Isolation of some physical, physicochemical and other properties. By M. Y. CHEW, P. B. SCUTT, I. T. OLIVER and J. W. H. LUGG	378
Organ specificity and lactate-dehydrogenase activity. Differential inhibition by urea and related compounds. By W. A. WITHYCOMBE, D. T. PLUMMER and J. H. WILKINSON	384
The incorporation of glycerol and lysine into the lipid fraction of <i>Staphylococcus aureus</i> . By E. F. GALE and J. P. FOLKES	390
The effect of chondromucoprotein on the solubility and peroxidative properties of haemoglobin and methaemalbumin in aqueous solution and blood. By A. J. ANDERSON	401
Influence of pancreatic hormones on enzymes concerned with urea synthesis in rat liver. By P. MCLEAN and F. NOVELLO	410
<i>Addendum</i> —Some observations on the colorimetric determination of citrulline and urea. By P. MCLEAN, F. NOVELLO and M. W. GURNEY	422
Acetolactate metabolism and the presence of a dehydroxy acid dehydratase in micro-organisms. By R. L. WIXOM	427
Fructose 1,6-diphosphatase in striated muscle. By H. A. KREBS and M. WOODFORD	436
Nicotinamide-adenine dinucleotide-glycohydrolase activity in experimental tuberculosis. By K. P. GOPINATHAN, M. SIRSI and C. S. VAIDYANATHAN	446
The separation of major components of the casein of bovine milk by electrophoresis in a density gradient. By W. MANSON	452
Properties of alkaline-phosphatase fractions in extracts of human small intestine. By D. W. MOSS	458
Removal of the N-terminal residue of a protein after transamination. By H. B. F. DIXON and V. MORET	463
The equilibrium of the reaction catalysed by citrate oxaloacetate-lyase. By S. S. TATE and S. P. DATTA	470

	PAGE
Naphthaquinone biosynthesis in moulds: the mechanism for formation of javanicin. By S. GATENBECK and R. BENTLEY	478
Condensed tannins. Optically active diastereoisomers of (+)-mollisacacidin by epimerization. By S. E. DREWES and D. G. ROUX	482
Metabolism of isolated rat retina. The role of non-esterified fatty acid. By H. KEEN and C. CHLOUVERAKIS	488
Protein synthesis in mitochondria. 4. Preparation and properties of mitochondria from Krebs II mouse ascites-tumour cells. By K. B. FREEMAN	494
Studies on a glycopeptide from ovalbumin. By J. R. CLAMP and L. HOUGH	502
5-Hydroxytryptamine metabolism by the nuclear fraction of rat-liver homogenate. By S. KVEDER and S. ISKRIC	509

Short Communications

Conversion of oleic acid into linoleic acid by a subcellular system of <i>Chlorella vulgaris</i> . By R. V. HARRIS and A. T. JAMES	15c
Concentrations of acetoacetate and D-(—)-3-hydroxybutyrate in rat liver and blood. By M. N. BERRY, D. H. WILLIAMSON and M. B. WILSON	17c
The effects of cyclopropane derivatives on ketone-body metabolism <i>in vivo</i> . By D. H. WILLIAMSON and M. B. WILSON	19c

Proceedings of The Biochemical Society

The metabolism of plasma free fatty acids by the lactating mammary gland of the goat. By E. F. ANNISON, S. FAZERKERLEY, J. L. LINZELL and B. W. NICHOLS	21P
Possible function of bile and pancreatic juice in fat absorption in the ruminant. By W. M. F. LEAT	21P
Lipids of photosynthetic tissue. By B. W. NICHOLS and A. T. JAMES	22P
Fatty acid biosynthesis in photosynthetic micro-organisms. By R. V. HARRIS, B. J. WOOD and A. T. JAMES	22P
Disulphide-linked antibodies as immunosorbents. By J. STEPHEN and H. SMITH	23P
Metabolism of benz[<i>a</i>]anthracine and 7,12-dimethylbenz[<i>a</i>]anthracene. By E. BOYLAND, P. SIMS and K. WILLIAMS	24P
The use of histochemical examination of maintenance-cultured tissue in assessing potential cytotoxic substances. By W. W. KIRKBY	24P
Some chemical and physical properties of calcitonin. By G. V. FOSTER, A. BAGHDIAINTZ, H. A. SOLIMAN and I. MACINTYRE	25P
The carotenoid pigments of <i>Solanum tuberosum</i> . By S. PENDLINGTON, M. S. DUPONT and F. J. TRUSSELL	25P
The metabolism of carotenoids in the brine shrimp <i>Artemia salina</i> . By B. H. DAVIES, WAN-JEAN HSU and C. O. CHICHESTER	26P
The discriminative oxidation of the sulphur atoms of thiosulphate by a photosynthetic sulphur bacterium— <i>Chromatium</i> strain D. By A. J. SMITH	27P
Biosynthesis of ubiquinone in micro-organisms. By D. N. BURTON and J. GLOVER	27P
The role of phosphopyruvate carboxylase in <i>Escherichia coli</i> . By J. M. ASHWORTH, H. L. KORNBERG and R. L. WARD	28P

CONTENTS

iii

	PAGE
L-Serine dehydratase of <i>Arthrobacter globiformis</i> . By E. S. BRIDGELAND and K. M. JONES	29P
Multiple forms of β -galactosidase in the rat. By A. J. FURTH and D. ROBINSON	29P
The stereospecificity of hydrogen transfer in the energy-linked reduction of nicotinamide-adenine dinucleotide by succinate. By D. E. GRIFFITHS and A. M. ROBERTON	30P
The stereospecificity of hydrogen transfer in the energy-linked transhydrogenase reaction. By A. M. ROBERTON and D. E. GRIFFITHS	30P
The effect of small molecules on the conformation of glutamic dehydrogenase. By P. M. BAYLEY and G. K. RADDA	31P

INDEX OF AUTHORS

	PAGE		PAGE
Adams, J. B.	368	Gatenbeck, S.	478
Anderson, A. J.	401	Glover, J.	27P
Annison, E. F.	21P	Gopinathan, K. P.	446
Ashworth, J. M.	28P	Griffiths, D. E.	30P
Baghdiantz, A.	25P	Gurney, M. W.	422
Bayley, P. M.	31P	Hamilton, G.	337
Bentley, R.	478	Harris, R. V.	15C, 22P
Berry, M. N.	17C	Hough, L.	502
Boylan, E.	24P	Hsu, W.-J.	26P
Bridgeland, E. S.	29P	Iskrić, S.	509
Brown, G. L.	314	James, A. T.	15C, 22P
Burton, D. N.	27P	Jones, J. G.	331
Chew, M. Y.	378	Jones, K. M.	29P
Chichester, C. O.	26P	Keen, H.	488
Chlouverakis, C.	488	Kerr, I. M.	337
Clamp, J. R.	502	Kirkby, W. W.	24P
Craddock, V. M.	323	Kornberg, H. L.	28P
Dahl, D. R.	345	Krebs, H. A.	436
Datta, S. P.	470	Kveder, S.	509
Davies, B. H.	26P	Leat, W. M. F.	21P
Dawkins, P. D.	353	Lee, S.	314
Della Corte, E.	309	Linzell, J. L.	21P
Dickens, F.	353	Lugg, J. W. H.	378
Dixon, H. B. F.	463	MacIntyre, I.	25P
Dodgson, K. S.	331	McLean, P.	410, 422
Drewes, S. E.	482	McMullen, D.	314
Dupont, M. S.	25P	Manson, W.	452
Elliott, K. A. C.	345	Martin, E. M.	337
Fazerkerly, S.	21P	Moret, V.	463
Folkes, J. P.	390	Moss, D. W.	458
Foster, G. V.	25P	Nichols, B. W.	21P, 22P
Freeman, K. B.	494	Novello, F.	410, 422
Furth, A. J.	29P	Oliver, I. T.	378
